Dear The Federal Communications Commission,

Dear sir, I am happy that you are happy about your new position. Now lets get down to it, as you may well know there is an issue about another dollar tax. As you may be aware or may not be which ever is the case, this is not fair in fact this is a revolting problem that has come to my attention. I urge you and your colleges and associates, to turn this proposel down immedately. As I cannot do nothing about this although I wish I could, someone of your high ranking political position can. So please Help.
